

Bredon, Bredon's Norton and Westmancote Parish Council

October 2019, Issue 69

Smartwater Signs

You may have noticed we have been installing the new Smartwater signage on the main entrances to all the villages in our Parish, and other locations. Hopefully, this will make burglars think twice about stealing from our Parish, as they know lots of the items will be marked and traceable by the police. If you haven't got a FREE Smartwater kit yet, please contact the Clerk.

Defibrillator - Bredon's Hardwick

The latest Defibrillator has been installed in the Cross Keys Pub, Bredon's Hardwick.

Police Report

There were 4 incidents to report for July and August:

- A push bike was reported as stolen from a property on Dock Lane.
- An outboard motor was reported as stolen from the marina on Dock Lane.
- A report from a third party that a van had a window broken in Blenheim Drive. It has not been confirmed if anything was stolen from within
- A burglary at a property in Queensmead which took place at around 10:30a.m. A male walked into the property through an unlocked rear door.

Due to maternity leave, the team is reduced to only PCSO Julie Pardoe and PC Daren Riley in the area at present.

Community Legacy Grant

The Parish Council submitted an expression of interest (stage one application) for a Wychavon Community Legacy Grant. The application was based on providing better connectivity between the Parish villages, without the need to utilise motor transport. Our application has been successful in progressing through to stage 2, so the Council are now in the process of preparing the full application.

As part of stage 2, the Council will be engaging with Parishioners to seek their thoughts on the project, to assess the level of need and support. The Parish Council invites Parishioners to make recommendations and show their support for this project to the Parish Council, so these can be accounted for in the stage 2 submission to the District Council.

Natural Networks Project

The Parish Council has successfully applied for a grant from the European Regional Development Fund, delivered in partnership with Worcestershire County Council and Worcestershire Wildlife Trust. We are currently seeking more funds, but look for temporary signs going up at Glebe Field and the wooded corner of the playing field, with the stream.

Some of the initial project work will commence in these areas, with help from the school, BCPR, and other local organisations. Please respect any areas where planting has taken place, or construction started.
