d) SWDP Examination Arrangements:

It is encouraging that the Inspectors are reviewing their position which could result in a reduction of built homes in the plan. Richard Buxton Solicitors are of the opinion that because Councils have been providing updated Local Housing Need (LHN), calculations do not mean the Inspectors have decided. Cllr Hardman will investigate further with Wychavon Planning.

e) Tewkesbury Garden Town (TGT):

Tewkesbury Borough Council's Planning Application 25/00490/OUT for Land North of Ashchurch has been received and is both detailed and complex. Cllr Bradley has met with the Chairman of Ashchurch Rural and Northway Parish Council and liaised with Newland Homes.

Initial observations of the North Ashchurch Consortium (NAC) application are as follows:

- Further highway modelling to look at trigger testing of mitigation is needed.
- NAC 650 homes from first phase from Hardwick Bank Road (HBR) do not include Newland Homes.
- Mitigation is based on very low trip rate, no evidence to suggest that is appropriate or agreed.
- Only modest cycle improvements proposed through the Northway area (The Park & Northway Lane).
- Modelling doesn't account for homes accessed from Sinderberry Drive.
- Off-site improvements – no commitment/agreement on when its delivered/triggered.
- NAC junction at HBR requires speed reduction to 30mph.
- Access and road alignment conflicts with Newland Homes.
- Pedestrian Bridge over rail to replace level crossing is abled bodied design only.
- ANPR surveys on A36 suggest 60% is strategic traffic between A46 & M5, 40% local traffic.
- No comment on what levels of strategic traffic might use new link road through development.

f) Other Planning Matters:

No update on Long Furlong ad Bensham Allotments.

## 6. Bredon Community Play and Recreation (BCPR) Update.

Due to Cllr Whiting's absence, the following have been referred to him to progress through liaison with BCPR:

**Notes of Public Question Time:**

Five residents, who reside in proximity of Planning Application W/25/00832/FUL, advised they had organised efforts to understand the application which unsuitable and contrary to SWDP and NP policies. Planning professionals and experts have been consulted on Highways and Drainage issues to refute misleading information from the applicant.

The application would remove privacy for the residents and key views would be compromised. The application is unsuitable and incompatible with adjacent buildings.

Other issues raised include drainage and surface water run-off, the proximity to a fast road and the need for a TPO for the mature Oak tree.
